THE AGENCY

# Mission

The campus is a place of training and experience sharing created in 2021 by Laurent Combalbert. Located on the heights of Burgundy, in the heart of a 12-hectare forest, its mission is to promote the transmission of knowledge in a protected site with no impact on the environment.

## COMMITMENT TO THE ENVIRONMENT

Protection of animal biodiversity and vegetation: 3,000 trees were planted

Development of renewable energies: the Campus is self-sufficient in electricity thanks to photovoltaic panels.

Support for local initiatives: all the products consumed come from local producers

Reasoned culture: 2000m<sup>2</sup> of plantations intended for the needs of the Campus

Four hives produce spring and summer honey.

Several ponds constitute renewable reserves for the irrigation of the vegetable garden.

# Training topics

The training is structured around three major themes resulting from the expertise of Laurent Combalbert and the experts who accompany him:

— ① —

NEGOTIATION

— ② —

LEADERSHIP

— ③ —

TRUST
